## HATE TO SEE DOGS CHAINED OUTSIDE 24/7/365? YOU CAN HELP!

**SENATE BILL 522** WAS RECENTLY INTRODUCED  
IN THE PENNSYLVANIA SENATE

### If passed, this bill would:

- Prohibit tethering a dog when temperatures are above 90F or below 32F or during extreme weather conditions
- Require proper fitting collars; no prong, choke or pinch collars
- Minimum tether length; maximum tether thickness
- If person convicted of violating current cruelty laws in conjunction with this new law, charge will be a 3rd degree misdemeanor

### HOW YOU CAN HELP ...

Please go to [www.unchainpadogs.com](http://www.unchainpadogs.com) and ...

**Find your state senator** and make the call asking him/her to co-sponsor/support **Senate Bill 522**.

If you have not already done so, please **join the Coalition Against Tethering**.

Because we want to hear your thoughts on acceptable limits for tethering dogs outside, please **complete the survey** on the website.

You can do all three things in five minutes or less, but **most important is making the call to your state senator**.

**THANK YOU!**

*In memory of Teddy,  
who languished in horrible  
conditions at the end of  
a four foot chain for years.*
